

Shopify integration

EUROPEAN FULLFILLMENT CENTER

Welcome to our integration guide for Shopify sellers! To seamlessly connect your store with our platform, you'll need to complete two key steps. First, integrate your Shopify store with our platform to establish a secure connection for data exchange. Then, connect your products using SKU keys to ensure accurate synchronization between both platforms. Follow our simple instructions to navigate through these steps and optimize your selling experience.

The screenshot shows the Shopify admin interface. On the left is a sidebar with navigation links: Home, Orders (43), Products (highlighted), Collections, Inventory, Purchase orders, Transfers, Gift cards, Customers, Content, Analytics, Marketing, Discounts, Sales channels, Online Store, and Apps. The main content area is titled 'Inventory' with a link to 'Adjustment history'. It contains fields for 'SKU (Stock Keeping Unit)' and 'Barcode (ISBN, UPC, GTIN, etc.)'. The SKU field contains the text '-ER-2580' and is circled in red with an arrow pointing to it from the text 'past the SKU here'. Below these fields are checkboxes for 'Track quantity' (checked) and 'Continue selling when out of stock' (unchecked). At the bottom is a table showing inventory levels for a location named 'Paseo del Charcón 23 nave'.

Location	Unavailable	Committed	Available	On hand
Paseo del Charcón 23 nave	0	11	689	700

Congratulations on completing the integration process! Your Shopify store is now seamlessly connected to our platform, empowering you to manage your products more efficiently. Your commitment to streamlining your operations is commendable, and we're excited to see the positive impact this integration will have on your business. If you have any questions or need assistance, our support team is here to help. Great job!
